

'A Professional, Fun and Safe Diving Environment'

OCEANIC  
INNOVATION FIRST

## ADVANCED ADVENTURER COURSE

You're a Qualified **Open Water Diver** so now is your chance to build on that experience. With the **Advanced Adventurer** here at **BCDA** in association with **Scuba Schools International** we provide you with the recognition, to offer the direction and level of achievement. Designed as a follow on to the Open Water course to offer a new qualification of certification and merit to provide our Divers with the chance to build on their experience from 5 specialty dives. Highlighting the activities to be availed on the Individual Specialty courses. Offering the recognition to sustain their knowledge and interest—whilst providing the opportunity to gain more experience within the company of the professionals we have here on-site at **BCDA**.

**The Advanced Adventurer** can provide you with the opportunity to experience something new - that can open up a whole new dive adventure! It offers you the experience to perhaps diving deeper and exploring the 'TOMI Wreck' with 'Enriched Air' mix which could also enhance better dive profiles or try a 'Boat Dive' instead of shore diving. All the **'Specialties'** on offer can touch on subjects that you as an **Advanced Adventure Diver** can sample prior to taking up a full specialty course. With the result that your decision to advance your education will make your diving safer, more comfortable and provide you with greater confidence to develop your skills underwater.

All you require is a prerequisite of your **Open Water Certification**, the dive briefs provided will get you in the water, all you need do is just kit up and go diving - your Adventures accredit you to gain your qualification.

With the **Advanced Adventure Diver Certification** you will automatically be Internationally recognised and certified for your higher qualification. So come on in and DIVE.

### Your ADVENTURE awaits!
