

'A Professional, fun and Safe Diving Environment'

OCEANIC
INNOVATION FIRST

SPECIALTY COURSE DRIFT DIVING

Drift Diving is an experience you will want to try again and again!
This has to be the most comfortable way to dive—where the currents of the Oceans deep are onside to provide you 'the diver' with the comfort of little exertion on your dives.
As with all Specialties into Diving there are special skills one associates with **Drift Diving** and factors to consider when taking up the sport **Drift Diving**.

Here at **BCDA** in association with **Scuba Schools International** we can provide the opportunity to accent the requirements for you to Drift Dive with ease and comfort.

We shall provide the circumstances to encourage your knowledge and skills with clear briefings to the

- ◆ Factors that account and require your consideration
- ◆ The Skills you will required
- ◆ The Equipment to ensure you stay safe when diving into Ocean Currents

So you too can '**fly whilst diving**' - an exhilarating experience awaits.
So come and relax with us on our very own **Drift dives**. Or if preference dictates you'd rather take one of our charters out to the Abrolhos Islands or perhaps select to take up one of the events where we cater specially for **Drift Diving**.

Equipment Recommendations;
◆ Compass
◆ Reel & D.S.M.B.
