

'A Professional, Fun and Safe Diving Environment'

OCEANIC
INNOVATION FIRST

SPECIALTY COURSE NIGHT & LIMITED VISIBILITY

Wow the life at **Night** on our Dive Locations here at **BCDA** are carpeted with colour and an abundance of life that can provide our Divers with a truly magical experience.

One of our most popular **Specialty** Experiences. **NIGHT DIVING** is a time when diving optimises the species of fish life to be witnessed. This **Specialty** maximises the opportunity to develop your abilities and capability to enhance the techniques on our selected dive sites.

Your practised skills are used and developed to assist you in acquiring further equipment needs in selecting the requirements that are used to **Dive at Night** in the Underwater realm.

The Night diver course will assist your comfort and knowledge levels further diving the Future locations you may come across with limited visibility.

See what captures the beam of your torch on our **NIGHT DIVES** its a whole new dive experience and one that you will want to continue to record in your log book!
