

'A Professional, fun and Safe Diving Environment'

OCEANIC
INNOVATION FIRST

SPECIALTY COURSE UNDERWATER PHOTOGRAPHY

We **Love to Dive** and there is nothing more powerful than recalling our dive experiences through our dives. To share those precious moments captured, ensuring a record for prosperity of the locations and the visual feast of our experiences in this precious underwater realm. What better method to record our shared experiences, than to capture images through our photography.

The Underwater Photography course combined with Home Study and the use of our onsite pool confined sessions we can provide you with the necessary skills and knowledge to assist:

- ◆ How to select the best camera system and film for your needs
- ◆ How to care for your camera system
- ◆ How to identify good photo subjects and improve composition
- ◆ Three simple principles for taking great underwater photographs
- ◆ Advance photo techniques
- ◆ About all necessary equipment and maintenance

We encourage all our budding Photographers to take a shot!!!
come in and take the plunge
and shoot away!!!

Your best shot can don our walls here
at the Dive Centre at **BCDA!**

WOW

happy times—happy memories.

Serious Diving—Serious Fun

We have here on offer at **BCDA.**
